

PRIVACY POLICY

The website under the URL www.goldentelemedia.com/themmapps and the services provided through the "WEB BULK SMS/MMS" service, software and tools are owned, operated and maintained by Golden Telemedia Limited (GT).

GT is a limited liability company registered in the Republic of Cyprus under Registration No. HE 55178 (V.A.T. Reg. No. 10055178T). GT is very keen on safeguarding your personal privacy.

We are fully registered under the Processing of Personal Data (Protection of the Individual) Law of 2001 of the Republic of Cyprus and ensure we comply with all protection the Law affords to you. Further information on the Law is on the internet at www.dataprotection.gov.cy.

In some areas of our website, as well as for purposes of registration and use of the services, software and tools, we ask you to provide information that will enable us to enhance your site visit or to fully utilise the services, software and tools. This would include where you download software, subscribe to services or buy SMS or MMS credits. When you do so we ask you to give us your name, company details, physical and/or email addresses and credit card details. The information you provide will be kept confidential. The information will be used by us in accordance with the Web Bulk SMS/MMS Terms and Conditions of Service. Otherwise the information will be kept confidential.

We may use your personal data for future email mailings, support, notification of new services, general correspondence regarding our services and correspondence which may relate to you. If in the future you do not wish to receive future marketing emails from us please inform us by email at info@goldentelemedia.com.

We do use cookies for collecting user information from the site or for purposes of the service and information about you will be collected solely for purposes of system administration, for purposes of the service and otherwise as described above and in accordance with the Web Bulk SMS/MMS Terms and Conditions of Service. Cookies are messages given to a web browser by a web server. The message is then stored by the browser in a text file called "cookie.txt". Each time the browser requests a page from the server, this message is sent back. A cookie's main objective is to identify users. A service using cookies will usually invite you to provide personal information such as your name and email address.
